

A REVOLUTIONARY ONLINE PLATFORM

Delivering Highest-Quality Speech Therapy Treatment

3 Simple Steps to Customized Care with TalkPath Classroom:

- 1. PLAN:** Clinicians create customized treatment plans from 60 types of exercises and 13,500+ tasks in language, cognition, communication, and daily living activities.
- 2. DELIVER:** The plan is delivered to students by licensed therapists. The platform is available 24/7 on a computer or via the iPad app, for unlimited **free** practice and homework sessions.
- 3. MONITOR:** SLPs monitor progress and student outcomes, measuring overall student gains and key metrics and producing all necessary reports.

TalkPath™ Classroom

TalkPath Classroom is a one-of-a-kind online therapy platform designed specifically for individuals of all ages and ability levels with a wide range of speech-language challenges.

TalkPath Classroom's extensive exercises and progress tracking enable clinicians to work at the top of their license to plan skilled therapy interventions and functional maintenance programs, deliver highest-quality care, and monitor progress across a school or facility. The platform's built-in reporting capabilities and role-based visibility enable administrators to measure key performance indicators to improve compliance and standardization of care and to maximize user outcomes.

A REVOLUTIONARY THERAPY PLATFORM

EXERCISES

TalkPath Classroom offers a wide variety of exercises for clinicians to build custom plans of care for students. Exercise categories include: cognition, oral-motor, language, speech, swallowing, news, and more.

ROLES

The platform provides distinct user roles, offering different levels of visibility and privileges to students, clinicians, teachers, school leaders, and school officials. These roles can be customized or expanded to your school or district.

REPORTING

All of the comprehensive, easy-to-read reports are color-coded, offering stakeholders a quick view into the progress of students. Special reports can be tailored for any school or district, and there's also built-in capability to produce video clips—not just print and online reports—for IEP and parent meetings.

PRICING

TalkPath Live pricing plans are flexible and customized to meet the needs of each client we serve. Access to and use of the TalkPath Classroom platform is automatically included in every client contract—for free, unlimited use.

COMPLIANCE & SUPPORT

TalkPath Classroom is HIPAA, FERPA, and COPPA compliant. All TalkPath Live customers receive onsite user training and unlimited technical support, including any necessary setup or installation of the iOS app.

With TalkPath Classroom You Can:

- **Ensure the quality of care for students** by establishing functional maintenance programs for speech therapy that will help improve outcomes and maintain positive quarterly IEP progress.
- **Reduce the cost of related services** by having our SLPs create informed, individualized therapy plans, deliver that therapy, and monitor that therapy.
- **Maintain compliance with all applicable regulations and fulfill all student requirements** by documenting all clinical progress and performance online and making that reporting data available in real time to all student support team members.

About TalkPath Live

TalkPath Live delivers one-to-one teletherapy to individuals facing a wide variety of communication, neurological, cognition, and physical challenges. Backed by a 30-year history of providing real-time therapeutic interventions using customized clinical tools, we work in partnership with school districts, clinicians, and caregivers nationwide to meet our clients wherever they may be on their path to highest-possible skills acquisition and a greatly improved quality of life.
